Level Up - Volume 9

Learning from Luca Exponential Growth with SIP

Luca is Pixar's film about two sea creatures who leave their watery homes to discover the wonders of the surface in a small village on the Italian Riviera. It's a sweet coming-ofage story about courage, curiosity, and friendship -- specifically, that of Luca.

Scared villagers wield spears and harpoons, and one even throws his at the main characters. Another character likes to use his big knife to chop up fish, much to Luca and Alberto's dismay. Parents and kids who watch together will be able to discuss the movie's appealing setting and its themes, particularly the importance of evaluating others for who they are, not because of their background or heritage.

Behavioural Finance Lessons from the Movie Luca

2) Letting people fear you isn't a good way to rule or maintain peace.
The villain doesn't have any true friends and no one actually respects him. Finally good wins.

1)YOUR THOUGHTS REALLY DO MATTER AND IMPACT YOU.

Alberto has to help Luca silence the 'bruno' in his head. Guilia has to be confident in her ability to succeed even though everyone is telling her that she can't. This is a great lesson for adults and kids- how do we positively manage our thoughts? For wealthy life its first imp to think rich.

3) We can't succeed by ourselves.
We've got to find good people and hang on to them
4) Even if you are born poor you can become rich- Luca was
supposed to be a sea monster for humans, but he managed to be one of them and finally go to school

Favorite Luca Quotes "You and me, we can do anything."-Alberto

"Hey, look me in the eye. You know I love you, right?" -Daniela

"Walking is just like swimming but without fins, or a tail. And there's no water."- Alberto

Alberto: "Don't think about it." Luca: "I don't know how to not think about something."

If you increase your contribution consistently , your wealth will grow exponentially
